The Lori Ann Infant Program of the Fresno Unified School District serves children with special needs from birth to 3 years of age. Children served have disabilities including complications of prematurity, syndromes, serious illnesses, speech, motor and other developmental challenges. Services are provided in the family’s home and in the community at no cost to the family. Interpreters are available.

Our Staff

The Lori Ann Infant Program includes credentialed teachers, nurse practitioner, school nurse, speech and language therapist, physical therapist, occupational therapist, deaf and hard of hearing specialist, vision and orientation and mobility specialist, school psychologists, and an infant mental health provider. Staff provide services in the home and community at no cost to the family.

Our Mission

To work with and alongside the family to provide an integrated program for the child that maximizes his or her potential and provides the foundational skills for future academic, social, and vocational success.

Services Offered

All services are provided in the family’s home, toddler groups, and in the community. Services include:

- Coordinate services with other agencies deemed beneficial to the family and child
- Assessment of each child’s unique abilities
- Speech therapy
- Physical therapy
- Occupational therapy
- Infant Mental health therapy
- Deaf and hard of hearing intervention
- Vision, orientation and mobility intervention
- Health Services
- Parent support, education and coaching
- Identify learning opportunities in the family’s daily routines to promote the child’s development

Family Support

Parent to parent support groups are offered on site and through our Family Resource Center.

Referral

We take referrals from Central Valley Regional Center (CVRC) and the State Department of Education.

If you have concerns about a child, please call: the Lori Ann Infant Program at (550)248-7236 or CVRC at (559)276-4300
